Shieldpad

the ideal protection for smartphones and tablets

Protect your screen and the edges of your device by giving it a unique color, without any bubble.

Through a unique process, the Shieldpad consists of a transparent section for your screen and a coloured part that protects and dress the edges of the front of your device, also the back for some models.
The Shieldpad is easy to apply on your device, all the bubbles can be removed by pushing them with your fingers thanks to its carefully studied adhesive material.

Shieldpad for tablets

Shieldpad for smartphones

Available for all smartphones (iPhone, Samsung Galaxy...).
See all the different models in the price list.
Ask us for any other model or colour.

Picklepad
the 100% universal portable stand

To hold and see in an inclined, vertical or horizontal position all your phones, smartphones, tablets, MP3, photo frames...

Universal & ultra portable

The Pickelpad can hold all your mobile devices in all positions.
Thanks to its mini size, its ultra light 9 grams weight and its folding function, the Pickelpad can be stored in one click and go with your smartphone, tablet, MP3, photo frame... in your pocket or your bag, anywhere you go... for all your devices.

Information provided for guidance only and subject to changes without notice. Trademarks and brands are the property of the respective owners.

BallPad

The support that holds all your devices on your table.
Just enjoy all your favourite multimedia data in comfort with this simple, smart accessory, the Ballpad!
